Roof Mitigation Verification Statement

Updated 09.04.2025

GENERAL INFORMATION

With the exception of Owner/Builder permits, this form must be provided for all residential and commercial roof replacement permits.
Tile roof replacements must have dry-in inspection.

Permit No.: _____

On _____ (insert date), I did personally inspect roof replacement work at the following location address:

_____

Based upon the examination, I have determined that the following roof mitigation measures were performed in accordance with F.S. 553.844 and the applicable provisions of the Florida Building Code:

- ☐ 1. Roof deck attachment and fasteners strengthened and corrected as required.
- ☐ 2. Secondary water barrier provided as required (based on F.S. 553.844).
- ☐ 3. Retrofit of roof-to-wall connections, when required.

CERTIFICATION

I certify that I am (check one of the following):

- ☐ Licensed Roofing Contractor
- ☐ Licensed General, Residential, or Building Contractor
- ☐ F.S. 468 Building Inspector
- ☐ Florida-Licensed Registered Architect or Engineer

I am duly authorized by the State of Florida or its county's municipalities to verify compliance with the Hurricane Mitigation Provisions of F.S. 553.844. I also certify that I personally inspected the premises at the location address listed above on the date of this statement.

In my professional opinion, based on my knowledge, information, and belief, I certify that the above statements are true and correct.

License No.: _____ Phone No.: _____

Signature: _____ Date: _____

The completed form must be uploaded to the Accela permit prior to scheduling any Roof inspection.
