GENERAL FACTS/STAFF ANALYSIS:

- The application of Stuart Threadgold for the property located at 9411 Redondo Drive focuses on one request relating to a special exception to the single-family use regulations.
- The first request is a special exception to the single-family use regulations. The property is zoned R-10(A), which restricts the site to one dwelling unit. The applicant is proposing to construct and maintain an additional dwelling unit (not for rent).
- Adjacent and neighboring properties appear to have like or similar rear structures as the subject site.
- The Dallas Development Code, single-family use regulations, states that only one dwelling unit may be located on a lot and that the Board of Adjustment may grant a special exception to this provision and authorize an additional dwelling unit on a lot when, in the opinion of the board, the special exception will not: (1) be use as rental accommodations; or (2) adversely affect neighboring properties.
- The applicant has the burden of proof in establishing that the special exception to the single-family use regulations will not adversely affect the neighboring properties and will not be used as rental accommodations.
- Granting the special exception to the single-family use regulations with a condition that the applicant complies with the submitted site plan and elevations would require the proposal to be constructed as shown on the submitted documents.
- Granting the special exception to the single-family use regulations would also require the applicant to deed restrict the subject property to prevent the use of the additional dwelling unit as rental accommodations.
